

Someone is with you

When you're feeling kind of blue
and there's nothing you can do
someone is with you

When there is no-one is around
and your eyes are looking down
someone is with you

When you're playing with your friends
and wish the day would never end
someone is with you

When you're feeling so alone
and you're far away from home
someone is with you

*Somewhere, somehow, someone is with you
someone who really matters is with you*

In the work and in the play
in the night and in the day
someone is with you

In the good and in the bad
in the best you've ever had
someone is with you

In the sun and in the rain
in the joy and in the pain
someone is with you

In the dark and in the light
in the middle of the night
someone is with you

*Somewhere, somehow, someone is with you
someone who really matters is with you*

*It means so much that someone cares
and to know they're with you
even when they are not there.*

When the tears are in your eyes
when you have to say goodbye
someone is with you

When you wish that you could stay
but you have to go away
someone is with you

*Somewhere, somehow, someone is with you
someone who really matters is with you*
